## Summary

## 2018

## 5 litters registerered

25 puppies
8 male and 17 female puppies
Average litter size: 5
Average inbreeding: 0,345\% (6 generations)
5 dogs imported

In 2018 we had 5 litters with a total of 25 puppies registered in Norway ( 9 puppies less than in 2017). The average litter size is 5,17 puppies. The average inbreeding is low, $0,345 \%$. It is good if we can keep it that low. The Norwegian Kennel Club use 6 generations when they calculate inbreeding and NIHK use NKK's calculations.

Most of the breeders follow NIHK's breeding recommendations, and most of the puppies are sold before their parents have mated. It would be nice to see more of our dogs in breeding, and also the imported dogs. Most breeders work together with NIHK to increase the genetic diversity of our breed.

In 2018 a Icelandic Sheepdog was used for a project to help the Norwegian Lundehund. The puppies from that litter is not mentiones in this report, but if you are interested you can read about it at the following web page http://lundehund.no/index.php/krysningsprosjektet1

The appendix contains list with the 5 litters registered and the 5 dogs imported in 2018.

## Health

The Icelandic sheepdog in Norway is all over a healthy breed.
24 dogs had an eye examination and they were all without a remark.
18 dogs were tested for HD, and $50 \%$ had A or B hips. 38,89 \% had C hips, 11,11 \% had D and 0\% had E. In 2018 there were $50 \%$ of the dogs who was $x$-rayed with an HD degree.

We know about three dogs with allergy. One was put to sleep in 2017 due to this and other issues.
Four dogs are known (/reported) to have patella luxation. One dog had patella luxation in one knee, and was operated as a youngster with success. Two dogs with patella luxation in both knees were put to sleep after unsuccessful operations.

## Litters

|  | 2018 | 2017 | 2016 | 2015 | 2014 | 2013 |
| :--- | :---: | :---: | :---: | :---: | :---: | :---: |
| Litters | $\mathbf{5}$ | 9 | 6 |  |  |  |
| Puppies <br> registrated | 25 | 34 | 25 | 35 | 3 | 8 |
| Average size of <br> litters | $\mathbf{5}$ | 3,78 | 4,16 | 4,37 | 5,33 | 33 |
| Average <br> inbreeding \% | $\mathbf{0 , 3 4 5} \%$ | $0,458 \%$ | $1,985 \%$ | $1,125 \%$ | $1,924 \%$ | $0,830 \%$ |

## Imports

|  |  |  |  |  |  |  |
| :--- | :---: | :---: | :---: | :---: | :---: | :---: |

| Iceland | 1 | 2 | 0 |  |  |  |
| Netherland | 0 | 1 | 0 |  | 0 |  |
| Finland | 0 | 0 |  |  |  |  |
| Polen | 0 | 1 |  |  |  |  |

Estimated number of Icelandic sheepdogs in your country

|  |  |  |  |  |  |  |
| :--- | :--- | :--- | :--- | :--- | :--- | :--- |
|  | 2018 | 2017 | 2016 | 2015 | 2014 | 2013 |
|  |  |  |  |  |  |  |

## Further comments:

We do not have any good tools to chart the numbers of Icelandic Sheepdogs in Norway. It will be very time-consuming and with a lot of uncertainties regarding imported and exported dogs.

## Stud dogs

These dogs have reached, or are close, to the ISIC breeding limit.
Black numbers from the Norwegian database, dogweb. Red numbers are from the ISIC database.
Males with more than 20 puppies, or more than 40 grandchildren, born in 1995 or later:

| Males |  |  |  |  |  |  | Yame of the dog | Year of birth | No. of <br> Litters | No. of Puppies | No. of <br> grandchildren |

| N20994/96 | Frida av Holteheia | 1996 | 4 | $0 / 23$ | $0 / 0$ |
| N21527/98 | Skreppeng's Sara | 1998 | 4 | $7 / 20$ | $9 / 34$ |
| N04837/01 | Skreppeng's Aylin | 2001 | 2 | $12 / 12$ | $47 / 58$ |

## Hip Dysplasia (HD)

## Further comments:

Method - FCl's rules for x-ray.
The Norwegian Kennel Club will only give puppies a pedigree if both parents have known HD-status. If a dog with Ehips is used in breeding, the puppies will get their pedigree, but they can't be used in breeding themselves.

NIHK recommend that only dogs with A, B or C hips are used in breeding. NIHK recommend that a dog with C-hips should only be mated with a dog with A-hips.

## Elbow dysplasia (ED)

| Total number of <br> x-rayed dogs | 2018 | 2017 | 2016 | 2015 | 2014 | 2013 |
| :--- | :---: | :---: | :---: | :---: | :---: | :---: |
| Level 0 | 1 |  | 1 |  |  |  |
| Level 1 |  |  |  | 4 | 7 | 2 |
| Level 2 |  |  |  |  |  |  |
| Level 3 |  |  |  |  |  |  |
| In total | 1 |  |  |  |  |  |

## Further comments:

It is not common to x-ray the elbows on Icelandic sheepdogs in Norway. However the tested dogs have level 0 as a result the last years.

## Patella luxation:

| Total number of <br> x-rayed dogs | 2018 | 2017 | 2016 | 2015 | 2014 | 2013 |
| :--- | :--- | :--- | :--- | :--- | :--- | :--- |
| Level 0 |  |  |  |  |  |  |
| Level 1 |  |  |  |  |  |  |
| Level 2 |  |  |  | 1 |  |  |
| Level 3 |  |  |  |  |  |  |
| In total |  |  |  | 1 |  |  |

## Further comments:

Results from this examination have not been official in Norway. NKK (Norwegian Kennel Club) did start to write patella luxation results in Dogweb, the Norwegian database, in 2013. If Icelandic sheepdogs are tested for patella luxation we will be able to see the results in the database. There is not any statistic for patella luxation, which means that we are dependent on the owners reporting to us about the dog being tested. Not every veterinarian is allowed to write this document, they need to be approved of NKK.

We have heard about four Icelandic sheepdogs with patella luxation in Norway from earlier years, but we don't know what level they have (two are dead). We know about one dog who is operate, with good result.

## Eye examinations

| Total number of <br> examined dogs | 2018 | 2017 | 2016 | 2015 | 2014 | 2013 |
| :--- | :---: | :---: | :---: | :---: | :---: | :---: |
| Unaffected <br> signifies (free) | 24 | 17 | 14 | 22 | 21 | 30 |
| Hereditary |  |  |  |  |  |  |
| Cornea <br> Distrophe |  |  |  |  |  |  |
| Distichiasis |  | 1 |  |  |  |  |
| Others |  |  |  |  |  |  |
| In total |  |  |  |  |  |  |

Name and ID of dogs with a remark at their EVCO/eye examination:
There are no new names on this list for the 2018 report.

| NO35594/16 | Ayak av Brattalid | 19.11 .2017 | Distichiasis mild level |
| :--- | :--- | ---: | :--- |
| S42340/2008 | Elom | 23.05 .2016 | Cataract |

## Health, optional testing

|  |  |  |  |  |  |  |
| :--- | :--- | :--- | :--- | :--- | :--- | :--- |
| BEAR |  |  | 2017 |  | 2016 | 2015 |
| Heart diseases |  |  |  |  |  |  |
| Kidney <br> diseases |  |  |  |  |  |  |

## Further comments:

One dog was in 2015 diagnosed with a low degree Aortic Stenosis (narrowing of the aortic valve, which controls the blood flow from the left ventricle). There have not been reported to be anyone else having the same problem since then.

## Mentality descriptions

|  |  |  |  |  |  |  |
| :--- | :---: | :---: | :---: | :---: | :---: | :---: |
| Descripted <br> dogs | 2018 | 2017 | 2016 | 2015 | 2014 | 2013 |
| In total | 0 | 0 |  |  |  |  |

## Further comments:

Many Icelandic sheepdog owners are interested in MH. But in Norway it is still not common to have any mentality description on dogs, besides for working dogs like German Sheppard and Rottweiler. However, this is becoming more popular, and dog clubs arranging mentality description tests are increasing. Which means the chance of an Icelandic Sheepdog being tested in the future is higher now.

## Working abilities (herding) descriptions

|  | 2018 | 2017 | 2016 | 2015 | 2014 | 2013 |
| :--- | :---: | :---: | :---: | :---: | :---: | :---: |
| Descripted <br> dogs | 0 | 0 | 0 | 15 |  |  |
| In total | 0 | 0 | 0 | 15 |  | 32 |

## Further comments:

We don't have any test in Norway to check the dogs herding abilities.

## Shows

|  | 2018 | 2017 | 2016 | 2015 | 2014 | 2013 |
| :--- | :---: | :---: | :---: | :---: | :---: | :---: |
| Number of <br> shows | 49 | 43 | 37 | 32 | 41 | 40 |
| Number of <br> dogs | 238 | 145 | 153 | 137 | 182 | 182 |
| In total (dogs) | 238 | 145 | 153 | 137 | 182 | 182 |

## Further comments:

The number is the total of entrees the whole year. We don't know how many individual dogs that have been to shows.
NIHK had one special show.
It is quite a lot of national dog shows in Norway, and usually we are allowed to show our Icelandic sheepdogs at these shows. At many of the national dog shows there was only 1-3 Icelandic sheepdogs shown, however at the international dog shows in Norway the number of participants with Icelandic Sheepdogs is higher.

## Events

## Icelandic sheepdog gathering 2018:

Our yearly gathering was held 7.-10. June at Tretten. Approximately 50 adults, youngsters and kids with their dogs spend a weekend together to learn more, and to have a great time. The attendees were from Norway and Sweden.

## Dog show

NIHK's special show was held at Tretten, Øyer at the same time as our yearly gathering. 57 dogs entered the show Sunday 9th of June. Dogs in ages from puppies to veterans were shown this day. The judge was Thorsteinn Thorsteinson.
